1498C/24 Wheeled starter, 24V

CE

36 kg

- Wheeled frame for easier movements and minimized effort
- Outstanding performance for numerous starts, including particularly demanding ones
- Electronic battery charger included
- LED and sound alarms in case of polarity reversal
- Protection against voltage peaks
- Battery charge indicator
- Solid electrolyte lead-acid battery (AGM)

24 V

High performance

4000 A

Continuous amperage	**1700 A**
Operating voltage	24 V
Pickup amperage	**4000 A**
Cable length	2000 mm
Cable section	**70 mm**
Charging voltage	230 V
Automatic battery charger	**24 V - 10 A**
